

THE TEMPLATE OF GAME BOARD

www.bangweegames.com

Safe Line

DO NOT put any important text/images beyond this dotted line. Anything past the dotted line has the potential for being trimmed. This line is provided to prevent the trimming of the important artwork/images.

The distance between the safe line and cut line should be more than 5mm.

Cut Line

This is the actual cut line of your final design.

Bleed Zone

Extend any game board artwork/color to the edge(covering the grey area) if you want your design to extend to the edge on the final print. The bleed zone is to make sure your design/color extends to the edge of the board.

The bleed zone should be 10 mm width.

BangWee

PLEASE NOTE:

Please adjust the cut line according to the size of your game board.
